PROFILE

Software Engineer with hands-on experience building scalable web applications and RESTful APIs using modern JavaScript technologies. Passionate about designing high-performance, user-focused solutions with clean architecture and maintainable code. Experienced collaborating in Agile teams and delivering production-oriented projects across frontend, backend, and cloud environments.

EDUCATION

Obour University | Egypt *Bachelor of Science in Computer Science and Information Technology* | 2021 – 2025

Grade: Good

INTERNSHIP

Information Technology Institute (ITI)

Full Stack Web & Generative AI Development using MEA/RN | Jan 2026 – Present

- Designed and developed multiple full-stack web applications using MERN and MEAN technologies.
- Built secure RESTful APIs with authentication, validation, and database integration.
- Collaborated in Agile teams using Git-based workflows and modern software engineering practices.
- Integrated AI capabilities into web applications using OpenAI APIs.

Web Development Diploma - Creativa Zagazig

PROJECTS

FitPower – AI-Driven Fitness Platform (Graduation Project) *Full Stack Developer* | MongoDB, Express.js, React, Node.js.

- Engineered a comprehensive fitness ecosystem featuring an AI nutrition assistant and dynamic exercise library, integrating personalized health calculators and real-time filtering to enhance user goal tracking and engagement.

OstaFinder – On-Demand Service Marketplace (ITI Graduation Project) *Full Stack Developer* | MongoDB, Express.js, React, Node.js, Supabase, OpenAI API, JWT

- Engineered a multi-role service marketplace featuring dual React interfaces and an intelligent OpenAI-powered assistant. Developed secure end-to-end service workflows, dynamic worker portfolios via Supabase, and strict JWT/Joi authentication layers, backed by an isolated Admin Dashboard and Swagger-documented REST APIs to optimize job dispatching.

TripStore – Full-Stack E-Commerce Platform (ITI) *Full Stack Developer* | Angular, Node.js, MongoDB, Express, RxJS

- Engineered a scalable outdoor gear platform with an integrated admin dashboard and dynamic catalog, implementing secure JWT authentication and reactive state management to provide a seamless checkout experience and real-time inventory tracking.

SmartPOS – Full-Stack Point of Sale System *Full Stack Developer* | Node.js, Express, RESTful API

- Engineered a robust POS backend featuring an automated order processing engine and inventory management system, implementing secure JWT authentication and a service-oriented architecture to ensure transaction consistency and scalable data handling.

Personal Portfolio Website *Frontend Developer* | React, Tailwind, UI/UX

- Designed and developed a responsive portfolio to showcase full-stack projects using React and Tailwind CSS.
- Implemented lazy loading and reusable component architecture to improve maintainability and performance.

TECHNICAL SKILLS

- **Frontend:** Angular, React, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind, Bootstrap, Sass, PWA
- **Backend:** Node.js, Express.js, GraphQL
- **Databases:** MongoDB, SQL Server
- **DevOps & Cloud:** AWS (EC2, S3, IAM, VPC), Docker, Linux.
- **Tools:** Git, GitHub, Postman, RESTful APIs, Agile
- **Design:** Figma, UI/UX Principles
